INDEX

ABSORPTION and excretion of riboflavin, role played by gastrointestinal tract in 137
—— fat and vitamin A, in man, influence of lecithin feeding on..... 255
—— intestinal, of galactose in rat, rate of, effect of pantothenic acid on 403
Acid, ascorbic, content of peaches, influence of variety, size, and degree of ripeness upon 503
—— —— deficiency among Papago Indians 491
—— —— —— in twelve normal adults, renal threshold for, with a note on the state of tissue reserves of subjects on an intake of ascorbic acid approximating suggested daily allowance 185
—— —— nutrition of some college students 411
—— folic, and biotin, role of, in nutrition of rat 555
—— nicotinic, and riboflavin in rats, tissue content and balance of, effect of protein and B-vitamin levels of diet upon 173
—— —— content of common fruits and vegetables as prepared for human consumption 275
—— —— pantothenic acid, biotin and riboflavin content of several varieties of cheese. Value of dairy products in nutrition. III 463
—— —— storage in dog at different dose levels of the vitamin 341
—— pantothenic, effect of high levels of, on reproduction in rat and mouse 389
—— —— —— —— on rate of intestinal absorption of galactose in rat 403
—— —— nicotinic acid, riboflavin and biotin content of several varieties of cheese. Value of dairy products in nutrition. III 463
—— —— reversible inhibition of, by sulfapyridine. Effect of aromatic hydrocarbons on growth 471
Action, goitrogenic, of calcium and vitamin D 119
ADLERSBERG, DAVID, AND HARRY SOBOTKA. Influence of lecithin feeding on fat and vitamin A absorption in man 255
Age and food, bodily store of vitamin A as influenced by 605
Albino rat, critical temperature for, as affected by feeding 127
—— —— thiamine, riboflavin, pyridoxine and pantothenate deficiencies as affecting body composition of 7
ALLEN, DORIS I. The assay of vitamin B_1 in New Zealand materials by the thiochrome method 521
Animal and plant products, choline content of 441
—— —— vegetable fats, some, digestibility of 295
ANTHONY, E. KATHLEEN. See Sharpless and Anthony 239
—— See Sharpless, Sabol, Anthony and Argetsinger 119
ARGETSINGER, HELEN L. See Sharpless, Sabol, Anthony and Argetsinger 119
Aromatic hydrocarbons, effect of, on growth. Reversible inhibition of pantothenic acid by sulfapyridine 471
Arrangement, linear, of palatability of natural foods with an example of varietal preference in leguminosae and cruciferae by a new, rapid laboratory method 447
Ascorbic acid content of peaches, influence of variety, size, and degree of ripeness upon 503
—— —— deficiency among Papago Indians 491
—— —— in twelve normal adults, renal threshold for, with a note on the state of tissue reserves of subjects on an intake of ascorbic acid approximating suggested daily allowance 185
—— —— nutrition of some college students 411
Assay, biological, of pyridoxine (vitamin B_6) 571
—— of vitamin B_1 in New Zealand materials by the thiochrome method 521
Assays, thiamine, of foods using rat-growth method 395
Availability for human nutrition of vitamin C in raw cabbage and home-canned tomato juice 349
—— of calcium of some New Zealand vegetables 303
Award, Mead Johnson, for research on vitamin B complex for 1943.... 611

BALANCE and tissue content of riboflavin and nicotinic acid in rats, effect of protein and B-vitamin levels of diet upon 173
Basal metabolism of normal college women 245
BAUER, CLIFFORD D., AND CLARENCE P. BERG. Growth in mice fed diets rendered deficient in cystine, but not in methionine 497
BAVOUSETT, NEVA D. See McCrery, Lamb and Bavousett 245
BEADLES, J. R. See Mitchell, Hamilton and Shields 585
BERG, CLARENCE P. See Bauer and Berg 497
BERRYMAN, GEORGE H., AND CHARLOTTE CHATFIELD. A short method of calculating the nutritive value of diets 23
BETHKE, R. M. See Hunt, Burroughs, Bethke, Schalk and Gerlaugh... 207
BEUK, JACK F. See Russell, Taylor and Beuk 275
Biological assay of pyridoxine (vitamin B_6) 571
—— determination of vitamin E 433
Biotin and folic acid, role of, in nutrition of rat 555
—— riboflavin, pantothenic acid and nicotinic acid content of several varieties of cheese. Value of dairy products in nutrition. III 463
BLACK, ALEX, AND RAYMOND W. SWIFT. The critical temperature for the albino rat as affected by feeding 127

Blood picture of rat, effects of inanition and riboflavin deficiency upon 511
BLOOM, EVELYN. See Sullivan, Bloom and Jarmol 463
BLOOMFIELD, ARTHUR L., AND WAY LEW. Increased resistance to ulcerative cecitis of rats on a diet deficient in the vitamin B complex 427
Bodily store of vitamin A as influenced by age and by food 605
Body composition of albino rat, thiamine, riboflavin, pyridoxine and pantothenate deficiencies as affecting 7
Bone calcification in growing rat, effect of dietary fat on 479
BORDEN, RUBY A. See Clayton and Borden 349
Bread and flour, enrichment of, utilization for hemoglobin regeneration of iron in salts used in 39
Bread, peeled wheat, vitamin B complex of 265
Breads, wheat, nutritive value of, contribution of non-fat milk solids to 585
Breast milk, factors affecting thiamine content of 49
BROWN, ALMEDA P., MARGARET L. FINCKE, JESSIE E. RICHARDSON, ELIZABETH N. TODHUNTER AND ELLA WOODS. Ascorbic acid nutrition of some college students 411
BUNKFELDT, RUDOLF, AND HARRY STEENBOCK. Vitellin, casein, liver and muscle tissue as sources of phosphorus for the rachitic rat.. 309
—— The effect of dietary fat on bone calcification in the growing rat.. 479
BURROUGHS, E. WISE. See Hunt, Burroughs, Bethke, Schalk and Gerlaugh 207
B-vitamin and protein levels of diet, effect of, upon tissue content and balance of riboflavin and nicotinic acid in rats 173

CABBAGE, raw, and home-canned tomato juice, availability for human nutrition of vitamin C in 349
Calcification, bone, in growing rat, effect of dietary fat on 479
Calcium and fat utilization, interrelation of 17
—— —— vitamin D, goitrogenic action of 119
—— of some New Zealand vegetables, availability of 303
Calves, young, utilization of urea by.. 197
Carotene content of tomatoes as influenced by various factors 539
Carotenoid metabolism, studies on. III. The effect of a high vitamin A diet on carotenoid metabolism of chickens 103
Casein, vitellin, liver and muscle tissue as sources of phosphorus for rachitic rat 309
Cattle, rumen content of, further studies on riboflavin and thiamine in. II. 207
Cecitis, ulcerative, of rats on diet deficient in vitamin B complex, increased resistance to 427
Cellulose and hemicellulose, disappearance of, from digestive tracts of children 59
CHATFIELD, CHARLOTTE. See Berryman and Chatfield 23
Cheese, several varieties of, riboflavin, pantothenic acid, nicotinic acid and botin content of. Value of dairy products in nutrition. III... 463
Chickens, carotenoid metabolism of, effect of high vitamin A diet on. Studies on carotenoid metabolism. III. 103
Children, digestive tracts of, disappearance of cellulose and hemicellulose from 59
—— normal, fat excretion by 379
Chloride, effect of, with high and low iodine supply on thyroid gland of rat 239
Choline and pyridoxine as factors in prevention of epithelial hyperplasia in forestomach of rats fed white flour 113
—— content of animal and plant products 441
—— —— —— feeds 1
Cirrhosis of liver, production of. Vitamin B complex studies in dogs 217
CLARKE, MIRIAM F., AND MARIE LECHYCKA. The biological assay of pyridoxine (vitamin B_6) 571
CLAYTON, MARY M., AND RUBY A. BORDEN. The availability for human nutrition of the vitamin C in raw cabbage and home-canned tomato juice 349
Committee, Mead Johnson award (American Institute of Nutrition) 611
Complex studies in dogs, vitamin B. Production of cirrhosis of liver.. 217
—— vitamin B, diet deficient in, increased resistance to ulcerative cecitis of rats on 427
—— —— ——, of peeled wheat bread 265
Composition, body, of albino rat, thiamine, riboflavin, pyridoxine and pantothenate deficiencies as affecting 7
Content, ascorbic acid, of peaches, influence of variety, size, and degree of ripeness upon 503
—— carotene, of tomatoes as influenced by various factors 539
—— choline, of animal and plant products 441
—— —— —— feeds 1
—— nicotinic acid, of common fruits and vegetables as prepared for human consumption 275
—— riboflavin, pantothenic acid, nicotinic acid and biotin, of several varieties of cheese. Value of dairy products in nutrition. III. 463
—— rumen, of cattle, further studies on riboflavin and thiamine in. II. 207
—— thiamine, of breast milk, factors affecting 49
—— tissue, and balance of riboflavin and nicotinic acid in rats, effect of protein and B-vitamin levels of diet upon 173
Contribution of non-fat milk solids to the nutritive value of wheat breads 585
Council meeting (American Institute of Nutrition) 611
Critical temperature for albino rat as affected by feeding 127
Cruciferae and leguminosae, varietal preference of, by a new, rapid laboratory method, on the linear arrangement of palatability of natural foods with an example of 447
Cucurbit seed globulins. II. Use as substitutes for edestin in experimental diets 99
CURRY, ROBERT. See Smith, Curry and Hawfield 341
CUSICK, PAUL L. See Williams, Mason, Cusick and Wilder 361
Cystine, diets rendered deficient in, but not in methionine, growth in mice fed 497

DAIRY products in nutrition, value of. III. Riboflavin, pantothenic acid, nicotinic acid and biotin content of several varieties of cheese 463
DAY, PAUL L. See Shukers and Day.. 511

Deficiencies, thiamine, rbioflavin, pyridoxine and pantothenate, as affecting body composition of albino rat 7
Deficiency, ascorbic acid, among Papago Indians 491
—— induced riobflavin, and riboflavin requirement of man, observations on 361
—— riboflavin, and inanition, effects of, upon blood picture of rat 511
Dermatoses, nutritional, in rat. VIII. Vitamin A deficiency 319
Determination, biological, of vitamin E 433
DEUEL, HARRY J., Jr. See Mattson and Deuel 103
Diet(s) deficient in vitamin B complex, increased resistance to ulcerative cecitis of rats on 427
—— experimental, edestin in, cucurbit seed globulins used as substitutes for 99
—— high vitamin A, effect of, on carotenoid metabolism of chickens. Studies on carotenoid metabolism. III. 103
—— highly purified, reproduction and lactation of mice on 161
—— rendered deficient in cystine, but not in methionine, growth in mice fed 497
—— short method of calculating nutritive value of 23
—— thiamine-low, of a type consumed by human beings, results of feeding rats 229
Dietary fat, effect of, on bone calcification in growing rat 479
Digestibility of some animal and vegetable fats 295
Disappearance of cellulose and hemicellulose from digestive tracts of children 59
Dog, nicotinic acid storage in, at different dose levels of the vitamin. 341
Dogs, vitamin B complex studies in. Production of cirrhosis of liver. 217
DORFMAN, FRIEDA. See Foster, Jones, Dorfman and Kobler 161
DOVE, W. FRANKLIN. On the linear arrangement of palatability of natural foods with an example of varietal preference in Leguminosae and Cruciferae by a new, rapid laboratory method 447

EDESTIN in experimental diets, cucurbit seed globulins used as substitutes for 99
Editor of The Journal of Nutrition, report of 612
Effect(s) of aromatic hydrocarbons on growth. Reversible inhibition of pantothenic acid by sulfapyridine 471
—— —— chloride with high and low iodine supply on the thyroid gland of the rat 239
—— —— dietary fat on bone calcification in growing rat 479
—— —— high levels of pantothenic acid on reproduction in rat and mouse 389
—— —— vitamin A diet on carotenoid metabolism of chickens. Studies on carotenoid metabolism. III. 103
—— —— inanition and riboflavin deficiency upon blood picture of rat 511
—— —— pantothenic acid on rate of intestinal absorption of galactose in rat 403
—— —— protein and B-vitamin levels of diet upon tissue content and balance of riboflavin and nicotinic acid in rats 173

Temperature, critical, for albino rat as affected by feeding 127
THACKER, JUANITA. See Taylor, Pennington and Thacker 389
Thiamine and riboflavin in rumen content of cattle, further studies on. II. 207
—— assays of foods using the rat-growth method 395
—— content of breast milk, factors affecting 49
—— low diet of a type consumed by human beings, results of feeding rats 229
—— of man, minimum daily requirement of 71
—— riboflavin, pyridoxine and pantothenate deficiencies as affecting body composition of albino rat.... 7
Thiochrome method, assay of vitamin B_1 in New Zealand materials by.. 521
Threshold, renal, for ascorbic acid in twelve normal adults with a note on the state of tissue reserves of subjects on an intake of ascorbic acid approximating suggested daily allowance 185

Thyroid gland of rat, effect of chloride with high and low iodine supply on 239
Tissue content and balance of riboflavin and nicotinic acid in rats, effect of protein and B-vitamin levels of diet upon 173
—— reserves of subjects on an intake of ascorbic acid approximating suggested daily allowance, renal threshold for ascorbc acid in twelve normal adults with a note on 185
—— vitellin, casein, liver and muscle, as sources of phosphorus for rachitic rat 309
TODHUNTER, E. NEIGE. See Brown, Fincke, Richardson, Todhunter and Woods 411
Tomato juice, home-canned, and raw cabbage, availability for human nutrition of vitamin C in 349
Tomatoes, carotene content of, as influenced by various factors 539
TORRES-BRACAMONTE, F. See Knott, Kleiger and Torres-Bracamonte.. 49
Tract, gastrointestinal, role played by, in absorption and excretion of riboflavin 137
Tracts, digestive, of children, disappearance of cellulose and hemicellulose from 59

ULCERATIVE cecitis of rats on diet deficient in vitamin B complex, increased resistance to.... 427
Urea, utilization of, by young calves.. 197
Utilization, calcium and fat, interrelation of 17
—— for hemoglobin regeneration of iron in salts used in enrichment of flour and bread 39
—— of urea by young calves 197

VALUE, nutritive, of diets, short method of calculating 23
—— —— —— wheat breads, contribution of non-fat milk solids to 585
—— of dairy products in nutrition. III. Riboflavin, pantothenic acid, nicotinic acid and biotin content of several varieties of cheese.... 463
Vegetable and animal fats, some, digestibility of 295
Vegetables and fruits, common, nicotinic acid content of, as prepared for human consumption 275
—— New Zealand, some, availability of calcium of 303
VICKERY, HUBERT B. See Hubbell, Vickery and Nolan 99
Vitamin, nicotinic acid storage in dog at different dose levels of 341
Vitamins in meat during cooking, retention of 143
Vitamin A and fat absorption in man, influence of lecithin feeding on.. 255
—— —— bodily store of, as influenced by age and by food..... 605
—— —— deficiency. Nutritional dermatoses in rat. VIII. 319
—— —— diet, high, effect of, on carotenoid metabolism of chickens. Studies on carotenoid metabolism. III. 103
Vitamin B and protein levels of diet, effect of, upon tissue content and balance of riboflavin and nicotinic acid in rats 173
—— —— complex, diet deficient in, increased resistance to ulcerative cecitis of rats on 427
—— —— —— of peeled wheat bread 265
—— —— —— studies in dogs. Production of cirrhosis of liver.... 217
—— B_1, assay of, in New Zealand materials by the thiochrome method 521
—— B_6 (pyridoxine), biological assay of 571
—— C in raw cabbage and home-canned tomato juice, availability for human nutrition of 349
—— D and calcium, goitrogenic action of 119
—— E, biological determination of.. 433
Vitellin, casein, liver and muscle tissue as sources of phosphorus for rachitic rat 309
